ARPITA PANDA

(+91) 9348645321 | pandaarpita2005@gmail.com | LinkedIn | GitHub | Bhubaneswar, Odisha

SUMMARY

Final-year BTech Computer Science Engineering undergraduate skilled in Java, Python, SQL, Generative AI (GenAI), DSA, and full-stack web development, with hands-on project experience building responsive applications and AI-powered tools. Strong problem-solving, teamwork, and leadership skills, backed by internships, technical projects, and NCC national-level participation.

Education

ITER, Siksha 'O' Anusandhan
B.Tech. in Computer Science and Engineering (CGPA: 8.61) — *Sep. 2023 – Ongoing*

Kendriya Vidyalaya Charbatia
Class XII, CBSE – PCM (76.5%) — *2023*

Kendriya Vidyalaya Charbatia
Class X, CBSE (93.8%) — *2021*

Technical Skills

Programming Languages: Java, Python
Web Technologies: React, HTML, CSS, Tailwind CSS, REST APIs
Databases: MySQL
Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Gen AI,LLM,Prompt Engineering,NLP,RAG,Embeddings, Vector Database, LangChanin

Internship

Infosys Springboard — Nov. 2025 – Jan. 2026
Java Developer Intern – Banking Activity Simulation Platform — *Remote*

- Architected a full-stack Java/MySQL banking app handling 50+ concurrent requests with sub-second latency.
- Built an automated low-balance alert system, improving user notification speed by 40%.

Projects

DSA Coach Feedback Generator | *Python, Gen AI,LLM,Prompt Engineering,NLP,RAG,Embeddings* | **LIVE**

- Developed an AI-powered DSA coaching tool to provide personalized feedback, hints, and optimization tips on coding attempts.
- Engineered an AI coaching tool evaluating code logic and time/space complexity across 50+ DSA problem patterns..
- Automated submission analysis workflows, generating detailed optimization hints in < 10 seconds.

Banking Activity Simulation Platform | *Java* | **GitHub**

- Built a scalable backend simulator for account management, transfers, and real-time transaction logging.
- Added input validation, balance constraint checking, and low-balance warning alerts.
- Optimized database queries and indexing, cutting ledger retrieval execution time by 35%.

Diabetes Risk Prediction | *Python, Pandas, Scikit-learn* | **GitHub**

- Deployed a production-ready web application with end-to-end error handling, educational modules, and responsive cross-device support.
- Evaluated 5 ML models (SVM, Logistic Regression, Neural Net, Random Forest, Gradient Boosting), optimizing SVM to achieve top accuracy of 77.34%.

Certifications & Achievements

Certifications: Java Foundation, Data Structures and Algorithms using Java, Software Engineering, Database Management – Infosys Springboard; SQL – Udemy.

Achievements: Gold Level – Go for Gold Contest (iAspire, Accenture); NCC B & C Certificate Holder.

Leadership & Activities: Publication Captain (Kendriya Vidyalaya Charbatia); Student Coordinator (Genesis 2025).
